C0.1

---

**(C0.1) Give a general description and introduction to your organization.**

The Exactpro Group is headquartered in the UK and has operations in the UK, the US, Georgia, Lithuania, Sri Lanka, Armenia, Canada, Australia and Italy.

We provide software testing services for operators of mission critical technology that underpins global financial markets, such as trading, clearing and settlement platforms, market data systems, collateral management and risk management systems, central data warehouses, regulatory reporting systems, etc. Our list of clients includes exchanges, clearing houses, securities depositories, trade repositories, digital exchanges, central banks, brokers, technology vendors and investment banks worldwide. The list includes half of the world's top 20 exchange groups that are regulated by the Financial Conduct Authority (FCA), Bank of England and their counter-parties in other countries. Since Exactpro's inception, the company's client network has expanded to over 20 countries on 6 continents.

C0.2

---

**(C0.2) State the start and end date of the year for which you are reporting data and indicate whether you will be providing emissions data for past reporting years.**

**Reporting year**

**Start date**

June 30 2022

**End date**

June 30 2023

**Indicate if you are providing emissions data for past reporting years**

No

## C1. Governance

---

### C1.1

---

**(C1.1) Is there board-level oversight of climate-related issues within your organization?**

Yes

### C1.2

---

**(C1.2) Provide the highest management-level position(s) or committee(s) with responsibility for climate-related issues.**

**Position or committee**

Chief Operating Officer (COO)

**Climate-related responsibilities of this position**

Developing a climate transition plan  
Setting climate-related corporate targets  
Monitoring progress against climate-related corporate targets

**Coverage of responsibilities**

<Not Applicable>

**Reporting line**

Operations - COO reporting line

**Frequency of reporting to the board on climate-related issues via this reporting line**

Less frequently than annually

**Please explain**

Exactpro is currently at the stage of gathering information about the annual emissions, forming a strategy of carbon footprint evaluation and organization's approach to climate-related issues.

---

### C1.3

---

**(C1.3) Do you provide incentives for the management of climate-related issues, including the attainment of targets?**

	Provide incentives for the management of climate-related issues	Comment
Row 1	No, not currently but we plan to introduce them in the next two years	At this moment we do not provide such incentives, however we improve the office environment to make it more eco-friendly and introduce thematical lectures, webinars and other initiatives to our employees in order to increase the level of common ecological consciousness.

## C2. Risks and opportunities

---

### C2.1

---

**(C2.1) Does your organization have a process for identifying, assessing, and responding to climate-related risks and opportunities?**

No

### C2.2g

---

**(C2.2g) Why does your organization not have a process in place for identifying, assessing, and responding to climate-related risks and opportunities, and do you plan to introduce such a process in the future?**

	Primary reason	Please explain
Row 1	We are planning to introduce a climate-related risk management process in the next two years	We understand its importance. However, introducing a system of identifying, assessing and responding to climate-related risks and opportunities has not been our company's immediate business priority in recent years.  We anticipate to develop and introduce a climate-related risk management system in the next two years by allocating the company's in-house resources.

### C2.3

---

(C2.3) Have you identified any inherent climate-related risks with the potential to have a substantive financial or strategic impact on your business?

No

### C2.3b

(C2.3b) Why do you not consider your organization to be exposed to climate-related risks with the potential to have a substantive financial or strategic impact on your business?

	Primary reason	Please explain
Row 1	Not yet evaluated	We acknowledge the fact that such risks may exist, however the company does not yet have in place a process for their identification and evaluation.  We are planning to introduce a climate-related risk management process and conduct a climate-related risk assessment in the next two years internally.

### C2.4

(C2.4) Have you identified any climate-related opportunities with the potential to have a substantive financial or strategic impact on your business?

No

### C2.4b

(C2.4b) Why do you not consider your organization to have climate-related opportunities?

	Primary reason	Please explain
Row 1	Not yet evaluated	We acknowledge that such opportunities may exist, however the company does not yet have in place a process for their identification and evaluation.  We are planning to introduce a climate-related risk management process and conduct a climate-related risk assessment in the next two years internally.

## C3. Business Strategy

### C3.1

(C3.1) Does your organization's strategy include a climate transition plan that aligns with a 1.5°C world?

Row 1

**Climate transition plan**

No, and our strategy has not been influenced by climate-related risks and opportunities

**Publicly available climate transition plan**

<Not Applicable>

**Mechanism by which feedback is collected from shareholders on your climate transition plan**

<Not Applicable>

**Description of feedback mechanism**

<Not Applicable>

**Frequency of feedback collection**

<Not Applicable>

**Attach any relevant documents which detail your climate transition plan (optional)**

<Not Applicable>

**Explain why your organization does not have a climate transition plan that aligns with a 1.5°C world and any plans to develop one in the future**

<Not Applicable>

**Explain why climate-related risks and opportunities have not influenced your strategy**

Exactpro has yet to assess its climate-related risks and opportunities before making a decision about a transition plan.

## C4. Targets and performance

### C4.1

(C4.1) Did you have an emissions target that was active in the reporting year?

No target

C4.1c

**(C4.1c) Explain why you did not have an emissions target, and forecast how your emissions will change over the next five years.**

	Primary reason	Five-year forecast	Please explain
Row 1	We are planning to introduce a target in the next two years	The emissions will increase in the next 5 years; among possible reasons there are: - increase in the number of equipment (capital goods) or their regular maintenance/replacement - increase in the number of business travels (COVID-19 lockdowns served to their decrease, however since 2022 their number is slightly growing according to business needs) - organized adjusting internal company processes in compliance with ESG practices including setting of science-based targets can take time with the results shown more than in five years.	This year we have allocated internal resources for climate-related data collection for transparent reporting and setting emissions reduction target over the next few years.  2023- Scope 1, Scope 2, Scope 3- partially - Collecting data and reporting emissions 2024- Scope 1, Scope 2, Scope 3 - Improving the processes and including more data into reports. 2025- Evaluating climate-related risks and opportunities. Emissions reductions target setting and strategy developing 2026- 2027- Progress monitoring and reporting

C4.2

**(C4.2) Did you have any other climate-related targets that were active in the reporting year?**

No other climate-related targets

C4.3

**(C4.3) Did you have emissions reduction initiatives that were active within the reporting year? Note that this can include those in the planning and/or implementation phases.**

Yes

C4.3b

**(C4.3b) Provide details on the initiatives implemented in the reporting year in the table below.**

**Initiative category & Initiative type**

Waste reduction and material circularity	Product/component/material recycling
--	--------------------------------------

**Estimated annual CO2e savings (metric tonnes CO2e)**

**Scope(s) or Scope 3 category(ies) where emissions savings occur**

Scope 3 category 5: Waste generated in operations

**Comment**

Recycling programs and waste reduction initiatives were implemented in most of Exactpro offices in 2021. In 2023, as the company is transferring its service delivery to new locations globally, it continues promoting the same principles across them. As part of it, Exactpro is involved in paper separation programs cooperating with the UN in Georgia (our largest service delivery location) and in batteries collection and recycling.

**Comment**

Across Exactpro offices, a number of eco-initiatives related to promotion of the idea of the importance of both global and individual contribution to environmental protection are implemented. On a regular basis, the company organizes internal lectures, webinars and events on the subject; we also suggest and support clean-up events in different locations, health safety, reducing individual carbon footprint, helping people in need and protecting homeless animals.

As per the initiative described, based on published comparison of biscuits vs local fruit carbon footprint, the company has organized "a Fresh Fruit Day" in the office (replacing the distribution of snacks to employees in the company offices from biscuits to local fruit no less than once per week).

**Comment**

In 2022, the existing procedure of business trip organization was revised. This resulted in the reduction of the trips number and related emissions compared to the years before COVID-19 restrictions were introduced.

## C5. Emissions methodology

---

### C5.1

---

**(C5.1) Is this your first year of reporting emissions data to CDP?**

No

### C5.2
